## Quiet Week For Housing as Market Volatility Looms

Most of this week's focus has been on financial markets where stocks, oil and rates all leveled-off after the exceptional volatility seen in the previous week. **Interest rates** didn't experience nearly as much volatility as other sectors, but they've all generally moved back in a more risk-tolerant direction together (higher stocks, rates, oil prices), after moving sharply lower together.

In simpler terms, **rates and stocks fell** 2 weeks ago and they **bounced back** last week. This week has been significantly flatter, by comparison. Interest rates have been especially well-centered on the proverbial fence. That's important because it suggests that investors are waiting for something to push them off the fence. Fortunately, we have clues as to what that might be.

At the end of last week, **Fed Vice Chair Stanley Fischer** made some important comments at the Fed's annual symposium in Jackson Hole (generally regarded as a unique venue for the Fed to speak a bit more candidly, and potentially drop bigger hints about what's in store). Yellen isn't there this year, so Fischer is the highest ranking Fed official on record.

Fischer said there was a "**strong case for a September hike**" and that there was "a little over two weeks before we make the decision." He further spoke to the importance of these 2 weeks by saying "we've got time to wait and see the incoming data." In other words, the economic reports coming out this week and next may play a key role in the Fed's rate-hike decision. The fact that bonds/rates have been so flat since then only puts more emphasis on Friday's big jobs report. Weeks like these, where rates barely budge, are typically followed by a **much larger move** higher or lower.

There's been little by way of **housing-specific news** since last Friday. On a related note to the market volatility, the MBA noted a sharp increase in **mortgage applications**. They cited the volatility as providing a temporary window of lower-rate opportunity despite the week-over-week mortgage rate being unchanged.

## National Average Mortgage Rates

	Rate	Change	Points
<b>Mortgage News Daily</b>			
30 Yr. Fixed	6.43%	<b>+0.02</b>	0.00
15 Yr. Fixed	5.95%	<b>0.00</b>	0.00
30 Yr. FHA	5.82%	<b>+0.02</b>	0.00
30 Yr. Jumbo	6.62%	<b>0.00</b>	0.00
5/1 ARM	6.28%	<b>-0.01</b>	0.00

### Freddie Mac

30 Yr. Fixed	6.35%	<b>-0.51</b>	0.00
15 Yr. Fixed	5.51%	<b>-0.65</b>	0.00

Rates as of: 8/30

## Market Data

	Price / Yield	Change

Pending Home Sales	Feb	75.6	+1.75%
Existing Home Sales	Feb	3.97M	-0.75%
Builder Confidence	Mar	51	+6.25%

### Average 30 Year Fixed Mortgage Rates

Mortgage News Daily, MBA, and Freddie Mac

In a separate report, the MBA noted another modest increase in **Mortgage Credit Availability**. As has been the case on several occasions, Jumbo guidelines are doing much of the heavy-lifting. But government agencies have also steadily unveiled guideline improvements that will allow more potential homeowners to qualify. The **most recent example** from Fannie Mae makes **fairly substantial changes** to the way some self-employed borrowers are evaluated. For now, the new guidelines are voluntary, but all lenders will be participating by February 1, 2016.

The only other official housing news of the week was an **upbeat reading** on **home price appreciation** from CoreLogic. Most home price tracking agrees that June is typically a better month than July for home prices, but the CoreLogic report showed a 6.9 percent year-over-year increase in July. Compare that to June's 6.5 percent increase and this becomes the most bullish recent reading on home prices. CoreLogic sees another 4.7 percent increase by next July.

## Service oriented, responsive, competitive rates and an in depth knowledge of todays mortgage market

After completing my degree in finance at the University of Connecticut, I started in the mortgage business right out of college in 2004. With 15+ years of experience and a primary objective of thoroughly explaining all available loan options to my clients with what is typically the largest investment in their lives, I strive to always make myself available. I constantly educate myself with respect to the mortgage industry and underwriting guidelines for FHA, VA, conventional and jumbo financing. I deliver on the expectations discussed up front and provide the service level my clients deserve from day one. I will remain in touch throughout the process and continue to follow up with you after closing. My goal is to wow you and turn you into clients for life. I want you to be so impressed that throughout and after the process you share my information with your friends, family, neighbors and co-workers who may value from my services.
