Mortgage Rates and Housing Trends Suggest Nervous Markets

Last week we discussed the **theme of consolidation** ahead of the holiday week, both in terms of mortgage rates and the broader housing market. In each case, 'consolidation' refers to narrowing outcomes of some particular measurement.

For example, **rates had been moving higher** at a quick pace and then flattened out. Each day became more similar to the last. The measurement of each day's average rates became more and more similar to the last few measurements. Thus, they were consolidating.

While we often see **volatility** in bond markets (and thus, mortgage rates) on Thanksgiving week, this year has been an exception. In fact, rates haven't moved much at all in nearly 2 weeks. Given the pace with which they HAD been moving higher at the beginning of the month, that's something to be thankful for indeed.

When it comes to determining the source of this kind of market paralysis, "uncertainty" is high on the list of usual suspects. **We have it in spades** at the moment. Juxtaposed with the near-certainty of a December rate hike from the Fed, we have recent comments from Fed officials expressing concern about rates getting "permanently stuck" near zero around the world. No one quite knows what to make of that, but at best, the Fed seems nervous, and that makes markets nervous.

Add **geopolitical risk** into the mix, like this week's news that Turkey shot down a Russian warplane, and markets only become more nervous.

Nerves have been calmer when it comes to the US economic outlook, and the housing market, but we continue to see consolidation here too. This week brought the release of both of the major Home Sales reports. NAR's **Existing Home Sales** data remained in positive territory year-over-year, but is definitely decelerating.

National Average Mortgage Rates

| | Rate | Change | Points |
|----------------------------|-------|--------|--------|
| Mortgage News Daily | | | |
| 30 Yr. Fixed | 6.43% | +0.02 | 0.00 |
| 15 Yr. Fixed | 5.95% | 0.00 | 0.00 |
| 30 Yr. FHA | 5.82% | +0.02 | 0.00 |
| 30 Yr. Jumbo | 6.62% | 0.00 | 0.00 |
| 5/1 ARM | 6.28% | -0.01 | 0.00 |

Freddie Mac

| | | | |
|--------------|-------|-------|------|
| 30 Yr. Fixed | 6.35% | -0.51 | 0.00 |
| 15 Yr. Fixed | 5.51% | -0.65 | 0.00 |

Rates as of: 8/30

Market Data

| | Price / Yield | Change |
|----------------|---------------|---------|
| MBS UMBS 5.0 | 99.37 | +0.02 |
| MBS GNMA 5.0 | 99.93 | +0.02 |
| 10 YR Treasury | 3.9068 | +0.0029 |
| 30 YR Treasury | 4.1960 | +0.0028 |

Pricing as of: 9/1 7:34PM EST

Recent Housing Data

| | Value | Change |
|---------------------|--------------|---------|
| Mortgage Apps | Aug 28 226.9 | +0.49% |
| Building Permits | Mar 1.46M | -3.95% |
| Housing Starts | Mar 1.32M | -13.15% |
| New Home Sales | Mar 693K | +4.68% |
| Pending Home Sales | Feb 75.6 | +1.75% |
| Existing Home Sales | Feb 3.97M | -0.75% |
| Builder Confidence | Mar 51 | +6.25% |

Existing Home Sales

The Census Bureau’s official tally of **New Home Sales** was **more upbeat** by comparison, but there is a catch or two. First off, the report is notorious for its wide margin of error. Case in point: this month’s numbers were 10.7 percent better than last month, but the margin of error was 17.7 percent! So they were probably better but possibly worse. Moreover, we really needed a win this time in order to get the year-over-year change back above the waterline, as can be seen in the chart below. Simply put, New Home Sales are consolidating, and perhaps even at a **crossroads** of sorts, at the intersection of the 2015 trend toward lower sales and the longer term trend higher.

New Home Sales

In less equivocal shape, long term, is the trend in home prices. Both **FHFA** and **Case-Shiller** said that prices continued higher at a faster pace than last month. In the chart below, the Case-Shiller line lags because it adjusts for inflation. In other words, prices aren't truly back to pre-crash levels.

Elsewhere in the realm of housing news, Fannie Mae released a **fairly upbeat forecast** despite the 'near certainty' of a Fed rate hike. Freddie Mac pointed out the **growing divide between buyers and renters**. And FHFA **increased loan limits** in several high cost counties.

Service oriented, responsive, competitive rates and an in depth knowledge of todays mortgage market

After completing my degree in finance at the University of Connecticut, I started in the mortgage business right out of college in 2004. With 15+ years of experience and a primary objective of thoroughly explaining all available loan options to my clients with what is typically the largest investment in their lives, I strive to always make myself available. I constantly educate myself with respect to the mortgage industry and underwriting guidelines for FHA, VA, conventional and jumbo financing. I deliver on the expectations discussed up front and provide the service level my clients deserve from day one. I will remain in touch throughout the process and continue to follow up with you after closing. My goal is to wow you and turn you into clients for life. I want you to be so impressed that throughout and after the process you share my information with your friends, family, neighbors and co-workers who may value from my services.
