Refinance Applications Continue Outperforming Purchases

The volume of refinancing applications, shored up by interest rates that remained at seven- and eight- month lows, rose for the **fifth time in the last six weeks**. However, during the week ended August 18, the gain was a marginal one, not enough to keep the overall level of applications from declining. The Mortgage Bankers Association said its Market Composite Index, a measure of that volume, was down 0.5 percent on a seasonally adjusted basis, and lost 2.0 percent before adjustment, when compared to the week ended August 11.

The **Refinancing** Index moved higher, but only by a scant 0.3 percent. The refinancing share of applications rose to 48.7 percent from 47.8 percent, the third straight week that share gained ground.

The **Purchase** Index declined by 2 percent on a seasonally adjusted basis and the unadjusted Index fell 3.0 percent compared to the previous week. The seasonally adjusted Purchase Index hit a seven-year high during the week ended June 2 (a holiday-adjusted week) and has declined in all but three of the 11 weeks since. The unadjusted index was 9.0 percent higher than during the same week in 2016.

Applications for **FHA** mortgages decreased to 10.1 percent from 10.2 percent and the **VA** share decreased to 10.2 percent from 10.5 percent. **USDA** loan applications again received an 0.8 percent share.

Mortgage **rates** were essentially flat during the week; most changes in contract rates were to the low side. Effective rates were mixed.

The contract rate for **30-year fixed**-rate mortgages (FRM) with conforming loan balances of \$424,100 or less was unchanged at 4.12 percent. Points increased to 0.39 from 0.38, leaving the effective rate unchanged as well.

Thirty-year FRM with **jumbo** loan balances higher than the \$424,100 conforming limit had an average rate of 3.99 percent versus 4.04 percent the

MBA's Weekly Mortgage Applications Survey has been conducted since 1990 and covers over 75 percent of all U.S. retail residential mortgage applications. Respondents include mortgage bankers, commercial banks and thrifts. Base period and value for all indexes is March 16, 1990=100 and interest rate information is based on loans with an 80 percent loan-to-value ratio and points that include the origination fee.

Service oriented, responsive, competitive rates and an in depth knowledge of todays mortgage market

After completing my degree in finance at the University of Connecticut, I started in the mortgage business right out of college in 2004. With 15+ years of experience and a primary objective of thoroughly explaining all available loan options to my clients with what is typically the largest investment in their lives, I strive to always make myself available. I constantly educate myself with respect to the mortgage industry and underwriting guidelines for FHA, VA, conventional and jumbo financing. I deliver on the expectations discussed up front and provide the service level my clients deserve from day one. I will remain in touch throughout the process and continue to follow up with you after closing. My goal is to wow you and turn you into clients for life. I want you to be so impressed that throughout and after the process you share my information with your friends, family, neighbors and co-workers who may value from my services.
