They appear to be on track to be higher again this month.

The company said its Home Price Index (HPI) increased by **6.7 percent** compared to March 2015 and was 2.1 percent higher in March of this year than in February. This is a slight deceleration from the annual increase it reported in January (6.8 percent), but nearly double its estimate of the January to February gain.

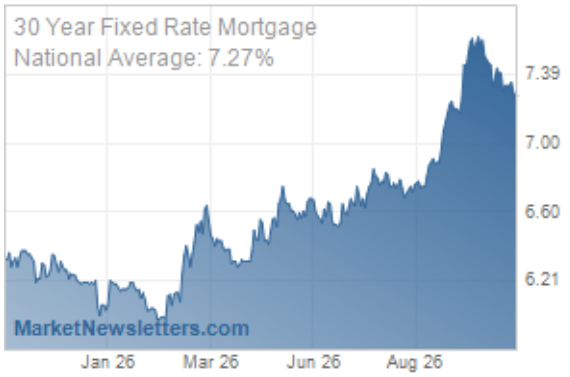

**Washington State** led the nation with a whopping 13 percent annual gain followed distantly by **Oregon** and **Colorado**, both with 10 percent increases.

growth driver."

Looking forward, CoreLogic **forecasts an increase** in home prices of 5.3 percent from March 2016 to March 2017 and 0.7 percent growth from March to April 2016. The forecast is a projection of home prices using the CoreLogic HPI and other economic variables. Values are derived from state-level forecasts by weighting indices according to the number of owner-occupied households for each state.

"Home prices reached the bottom five years ago, and since then have appreciated almost 40 percent," said Anand Nallathambi, president and CEO of CoreLogic. "The highest appreciation was in the West, where prices continue to increase at double-digit rates."
